

Join the next generation in washroom hygiene!

Hygenifoam[®]

Luxury Foaming Soap

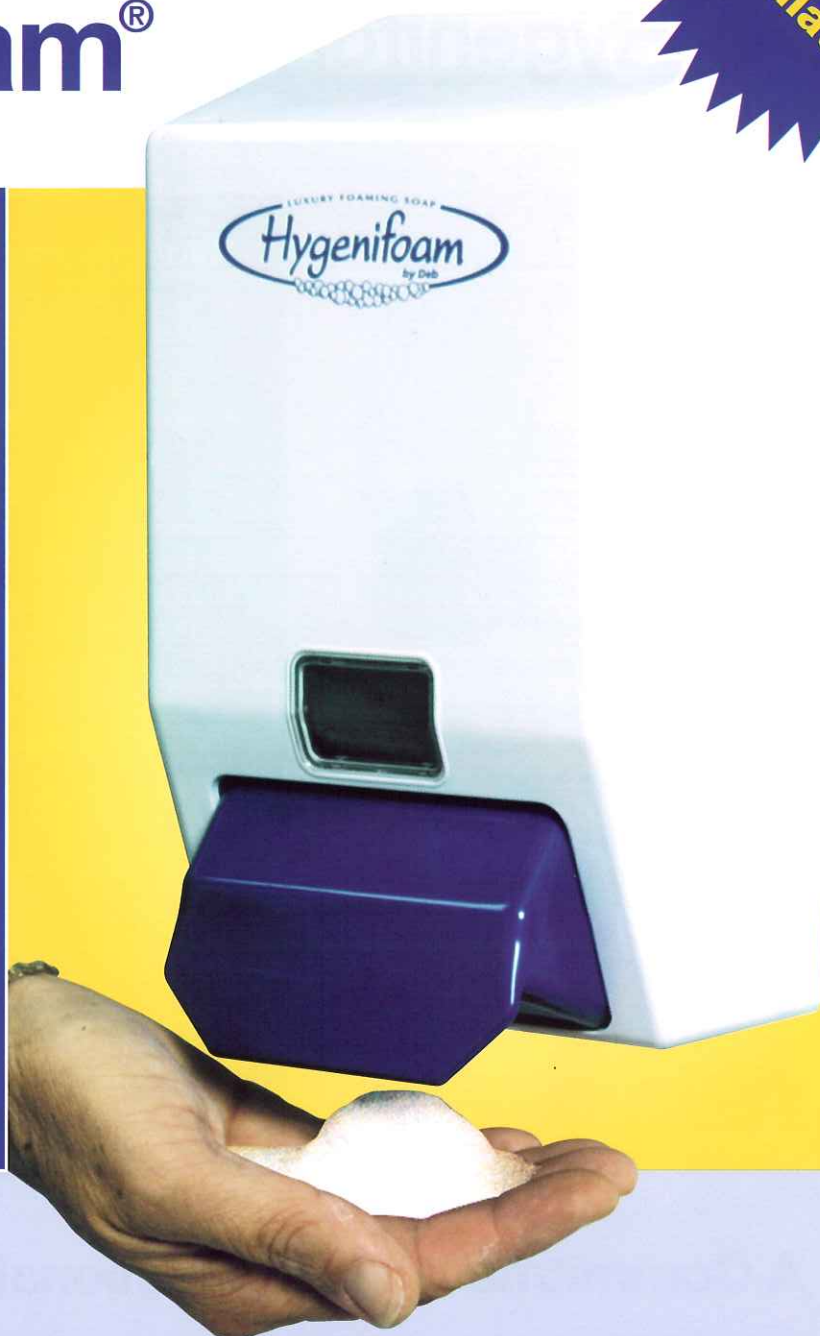

New
Formulation!

From Deb[®], the Occupational Skin Care Specialists

The Deb Hygenifoam System comprises specially developed dispensers and innovative luxury foaming soap, to ensure effective cleansing in the washroom.

Washroom hygiene is a top priority in most organisations today. Employees, customers and guests expect and deserve the highest standards of cleanliness.

Deb, worldwide leaders in dispenser technology and skin care, have combined new hygiene and cost effective features together with modern design to create Hygenifoam – one of the most innovative washroom systems in the world today.

Features & Benefits

- **Instant foam:** Very little water is required to generate rich lather.
- **Quick rinse-off:** Reduces water consumption and wash-up time. Leaves skin clean.
- **Low active content:** Foam generated is 20 times the actual volume in contact with the skin, reducing the possibility of drying or irritation.
- **Low viscosity:** Cartridge drains completely.
- **Light fragranced:** Pleasant during use and suitable for frequent washing.
- **Conditioning:** Contains superfatting conditioning agents which leaves the skin feeling soft and supple, even after frequent use.
- **Deb Dispenser Lifetime Warranty.**

Cleaning and Hygiene ... In Safe Hands!

Your choice of dispensers with
Deb Hygenifoam® Systems

Stock code: 6000 Stock code: 2127

Hygenifoam Soap

- The Hygenifoam sealed cartridge dispenser has been designed to minimise maintenance and cost in use, whilst maximising hygiene and convenience.
- The Hygenifoam Dispenser offers 1600 hand washes per cartridge and is suitable for light-to-medium traffic areas.
- A new pump supplied with each cartridge, eliminating the probability of product contamination is an added benefit.

Available in: 1 litre cartridge

Also available in a Starter Pack format which includes:

1 x Hygenifoam Dispenser + 2 x 1 litre cartridges. Stock code: 4295
